Harvey® Learners

**HIGHLIGHTS & ACHIEVEMENTS IN 2021**

**ADVANCED STROKE LIFE SUPPORT® (ASLS)**

Curriculum we developed that offers healthcare providers the training to make a rapid evaluation, stabilize, and care for stroke patients. Curriculum that continues saving lives.

**ARMY TRAUMA & SPECIAL OPS TEAMS TRAINING**

Continuing our longstanding partnership with the U.S. Army for 20 years, lessons from the military allow us to transfer critical life-saving techniques to Florida's first responders.

**STATE-OF-THE-ART TECHNOLOGY**

We pioneered the Harvey cardiology simulator 50 years ago, and are now developing innovative virtual reality simulation and point-of-care ultrasound training to diagnose patient's diseases and injuries more quickly.

**TRAINING & LOGISTICAL SUPPORT IN SURFSIDE**

In response to the building collapse in Surfside, the Gordon Center provided supplies and logistical support to Miami-Dade Fire Rescue emergency response teams whom we also train.

**TELEMEDICINE IN FIRE RESCUE TRUCKS**

Allowing first responders to communicate with local hospitals and make triage decisions to treat patients more quickly when seconds count.

**RAPID RESPONSE TEAM TRAINING**

Improving the quality and safety of patient care by creating effective hospital-based rapid response teams who save lives in emergency situations.

**TRAINING & CERTIFICATIONS FOR FIRST RESPONDERS**

Implementing new skills assessment capabilities to ensure first responders can safely re-certify for advanced cardiac life support training.
